

CITY OF VANCOUVER URBAN FORESTRY DIVISION STREET TREE WORKER LICENSE 2010

Tree Care Contractors with a Street Tree Workers License

The following is a list of tree care contractors that have met the **minimum** qualifications to obtain a Street Tree Worker License. According to the Street Tree Ordinance (VMC 12.04), only individuals or companies with a valid Street Tree Worker License may perform **major pruning** on street trees. The work these companies perform must be done in accordance with the guidelines and specifications contained within the Street Tree Manual.

Permits are required for planting, major pruning, and removal of all street trees. Contact Urban Forestry before beginning any work on street trees.

Advice about how to hire an arborist can be found on the Urban Forestry website. Solicit bids from multiple qualified tree care providers; the lowest bid is not always the best. Require a written job proposal and estimate. Check references.

Note: Neither the City of Vancouver nor this department endorses these firms or assumes liability for their services.

Contact Vancouver Urban Forestry at (360) 619-1128 or urbanforestry@ci.vancouver.wa.us.
